CGA COMPLETES 2014 DIRT REPORT

Our counterpart in the United States has completed their national report that assesses and analyses incident data. Canada has provided some information on our incidents and is part of the report.

The report identifies that 25% of incidents still occur as a result of not notifying the local One Call Center. This has levelled off in the last few years but still leaves opportunity for improvement. The report notes that areas that have strong enforcement programs seem to be performing slightly better with increased use of one calls and decreases in damages.

Distribution of Known Events by Root Cause

For a copy of the report please go to the following link:

SCGA IS NOW A MEMBER OF DIRT

In order to assess and report on incidents that occur in Saskatchewan and identify opportunities to improve our performance, the SCGA is taking the lead on gathering incident data.

In order to be a registered company on the SCGA DIRT and start entering incident data please go to the following link and follow the directions. <https://www.cga-dirt.com>

DAMAGE PREVENTION PROFESSIONAL

This magazine has put together a special Western Canada Issue with articles about efforts in our region to reduce damage. It is expected that this will become a regular effort given the positive feedback. The Canadian content supplements the existing interesting damage prevention articles in the magazine.

If you would like to be included on the mail list or have some ideas for articles on Saskatchewan please contact Daryl Posehn,
dposehn@scga.ca

CCGA THIRD ANNUAL DAMAGE PREVENTION SYMPOSIUM

"Extremely valuable to network with peers and see how other people in the industry work towards damage prevention."
